

# New and Advanced Analytical Developments in Oil Processing

Presented by Dr. Ir P. Dysseler

(CERIA • Institut Meurice • Brussels, Belgium)

⑤ The use of standard methods for the quality assessment of oils and fats helps suppliers and users to find a common base for discussions.

# Standard Methods

**Standard methods are used  
to measure quality criteria:**

- ⌚ applied worldwide
- ⌚ tested by collaborative study
- ⌚ generally accepted by authorities

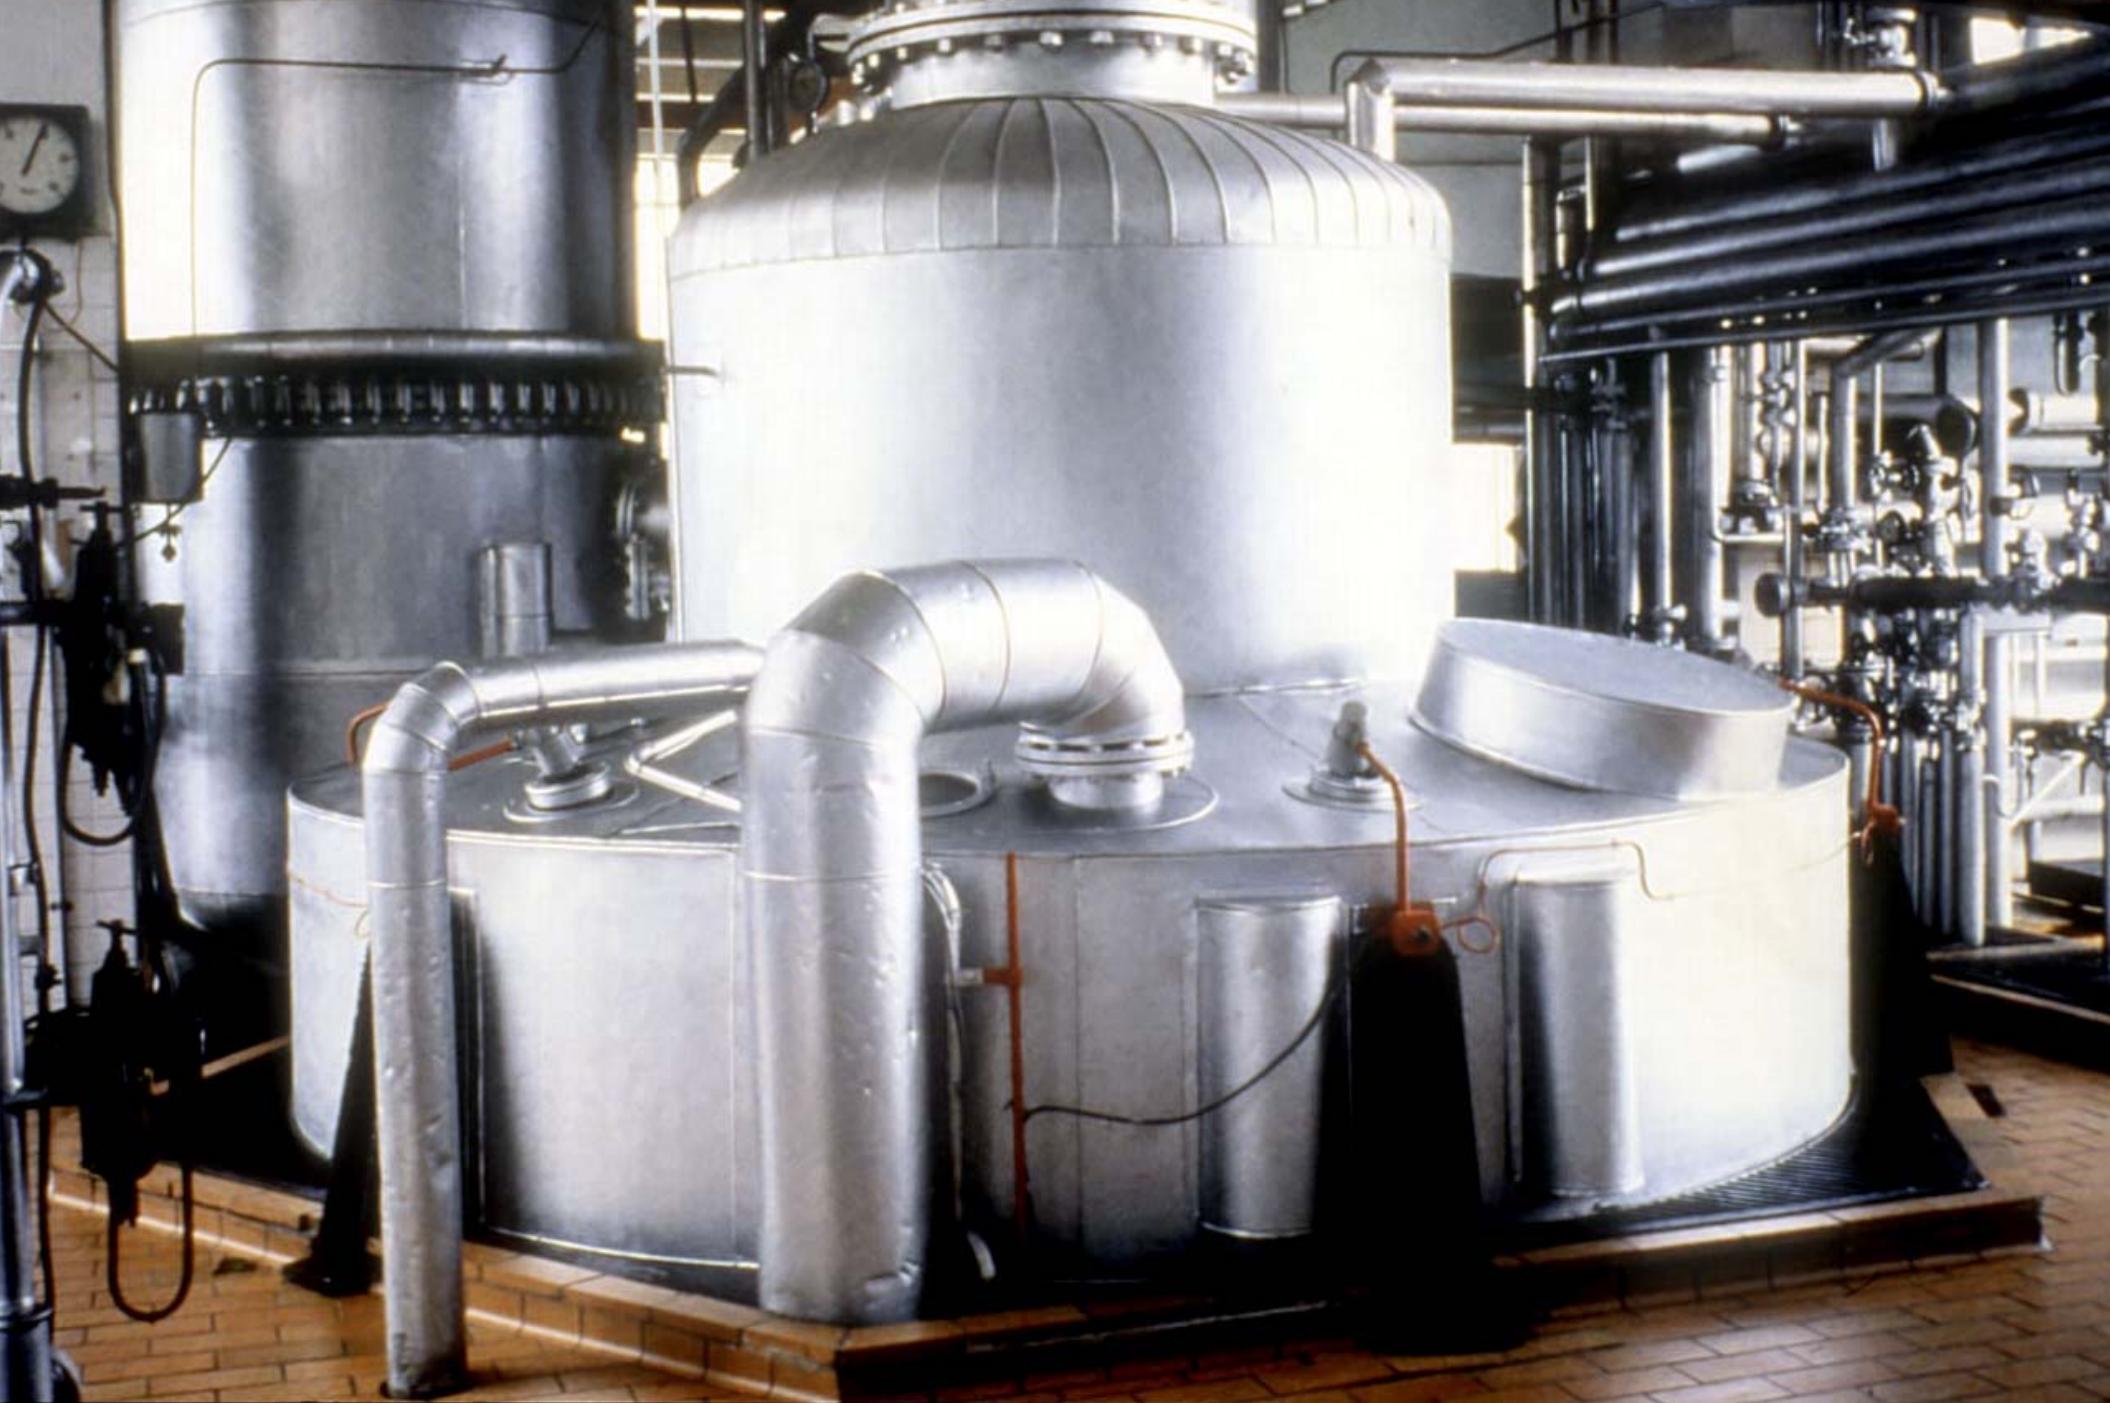

**AOCS / AOAC / IUPAC / ISO / CEN**
